#### Documentation

As part of our efforts to reach [carbon neutrality by 2030](#), iPhone 16 Pro and iPhone 16 Pro Max do not include a power adapter or EarPods. Included in the box is a USB-C Charge Cable that supports fast charging and is compatible with USB-C power adapters and computer ports.

We encourage you to use any compatible USB-C power adapter. If you need a new Apple power adapter or headphones, they are available for purchase.

## iPhone and the Environment

iPhone 16 Pro and iPhone 16 Pro Max are designed to reduce environmental impact:<sup>21</sup>

[See the iPhone 16 Pro and iPhone 16 Pro Max Product Environmental Report \(PDF\)](#)

### Progress toward Apple 2030

More than 25% recycled content<sup>22</sup>

30% emissions reductions against business-as-usual scenario as modeled by Apple<sup>23</sup>

[See Apple's commitment](#)

### Materials

100% recycled aluminum in the internal structural frame and thermal substructure

100% recycled cobalt in the battery<sup>24</sup>

Over 95% recycled lithium in the battery — a first for Apple<sup>24</sup>

100% recycled gold wire in all cameras and Camera Control

100% recycled gold in the plating of multiple printed circuit boards, the USB-C connector, and multiple small parts

100% recycled copper in multiple printed circuit boards, and 100% recycled copper foil and wire in the inductive charger

100% recycled tin in the solder of multiple printed circuit boards

100% recycled tungsten and copper wire in the Taptic Engine

100% recycled rare earth elements in all magnets

80% recycled steel in multiple components including the Taptic Engine, speaker, multiple small parts, and the display support plate

At least 50% recycled plastic in 14 components

100% fiber-based packaging<sup>25</sup>

66% recycled content in fiber packaging

### Energy

30% of manufacturing electricity for iPhone 16 Pro and

**iPhone 16 Pro Max is sourced from renewable electricity<sup>26</sup>**

**Exceeds U.S. Department of Energy requirements for battery charger systems<sup>27</sup>**

### **Waste**

**No established final assembly sites generate waste sent to landfill as part of Apple's Zero Waste Program**

### **Smarter chemistry<sup>28</sup>**

**Arsenic-free glass**

**Mercury-, BFR-, and PVC-free**

\* To identify your iPhone model number, see [support.apple.com/kb/HT3939](https://support.apple.com/kb/HT3939). For details on 5G and LTE support, contact your carrier and see [apple.com/iphone/cellular](https://apple.com/iphone/cellular). Cellular technology support is based on iPhone model number and configuration for GSM networks.

1. Available space is less and varies due to many factors. A standard configuration uses approximately 12GB to 17GB of space, including iOS 18 with its latest features and Apple apps that can be deleted. Apple apps that can be deleted use about 4.5GB of space, and you can download them back from the App Store. Storage capacity subject to change based on software version, settings, and iPhone model.
2. Size and weight vary by configuration and manufacturing process.
3. iPhone 16 Pro and iPhone 16 Pro Max are splash, water, and dust resistant and were tested under controlled laboratory conditions with a rating of IP68 under IEC standard 60529 (maximum depth of 6 meters up to 30 minutes). Splash, water, and dust resistance are not permanent conditions. Resistance might decrease as a result of normal wear. Do not attempt to charge a wet iPhone; refer to the user guide for cleaning and drying instructions. Liquid damage not covered under warranty.
4. Apple Intelligence is available in beta on all iPhone 16 models, iPhone 15 Pro, and iPhone 15 Pro Max, with Siri and device language set to English (Australia, Canada, Ireland, New Zealand, South Africa, UK, or U.S.), as an iOS 18 update. Additional features and languages will be available in April, with more languages coming over the course of the year. Languages supported in 2025 include Chinese, English (India, Singapore), French, German, Italian, Japanese, Korean, Portuguese, Spanish, and Vietnamese.
5. Apple Cash services are provided by Green Dot Bank, Member FDIC. Apple Payments Services LLC, a subsidiary of Apple Inc., is a service provider of Green Dot Bank for Apple Cash accounts. Neither Apple Inc. nor Apple Payments Services LLC is a bank. Learn more about the [Terms and Conditions](#). Only available in the U.S. on eligible devices. To send and receive money with an Apple Cash account, you must be 18 and a U.S. resident. If you're under 18, your family organizer can set up Apple Cash for you as part of their Apple Cash Family account, but you may not be able to access features that require a supported payment card. Security checks may require more time to make funds available. Apple Cash Family accounts can only send or receive up to \$2000 within a rolling seven-day period. Tap to Cash transactions can only be used to send or receive up to \$2000 within a rolling seven-day period. Other limits apply, see [Terms and Conditions](#) for details. To access and use all Apple Cash features, you must have an eligible device with Wallet that has the latest version of iOS.
6. Available only in select cities and transit systems. Requires eligible device and OS version. [See here for details](#).
7. Roadside Assistance, Emergency SOS, and Messages via satellite are included for free for two years with the activation of any iPhone 14 or later model. Connection and response times vary based on location, site conditions, and other factors. Messages via satellite requires a carrier plan. SMS messaging via satellite is available on supported carriers. SMS message rates may apply. See [support.apple.com/kb/HT213885](https://support.apple.com/kb/HT213885) for more information.
8. iPhone 16 and iPhone 16 Pro can detect a severe car crash and call for help. Requires a cellular connection or Wi-Fi calling.
9. Data plan required. 5G, Gigabit LTE, VoLTE, and Wi-Fi calling are available in select markets and through select carriers. Speeds are based on theoretical throughput and vary based on site conditions and carrier. For details on 5G and LTE support, contact your carrier and see [apple.com/iphone/cellular](https://apple.com/iphone/cellular).
10. Wi-Fi 7 available in countries and regions where supported.
11. Ultra Wideband availability varies by region.
12. FaceTime calling requires a FaceTime-enabled device for the caller and recipient and a Wi-Fi connection. Availability over a cellular network depends on carrier policies; data charges may apply.
13. Standard dynamic range video content only.
14. Siri may not be available in all languages or in all areas, and features may vary by area. Internet access required. Cellular data charges may apply.
15. USB 3 cable with 10Gb/s speed required.
16. All battery claims depend on network configuration and many other factors; actual results will vary. Battery has limited recharge cycles and may eventually need to be replaced. Battery life and charge cycles vary by use and settings. See [apple.com/batteries](https://apple.com/batteries) and [apple.com/iphone/battery.html](https://apple.com/iphone/battery.html) for more information.
17. MagSafe wireless charging up to 25W with 30W adapter or higher. Testing conducted by Apple in August 2024 using

preproduction iPhone 16 Pro and iPhone 16 Pro Max units and software, USB-C Charge Cable with Apple USB-C Power Adapter (20W Model A2305), and Apple MagSafe Chargers (1-meter Model A2580 and 2-meter Model A3250) with Apple USB-C Power Adapter (30W Model A2164). Fast-charge testing conducted with drained iPhone units. Times measured from the appearance of the Apple logo as the unit started up. Charge time varies with settings and environmental factors; actual results will vary. Wireless chargers sold separately.

18. iPhone 16 models are activated with an eSIM and do not support a physical SIM. Use of an eSIM requires a carrier that supports eSIM and a wireless service plan (which may include restrictions on switching service providers and roaming, even after contract expiration). See your carrier for details. To learn more, visit [apple.com/esim](https://apple.com/esim).
19. Wireless broadband recommended; fees may apply.
20. In China mainland, you can use Apple Pay on the web in Safari only on compatible iPhone and iPad models using iOS 11.2 or later.
21. Data accurate as of product launch.
22. Product recycled or renewable content is the mass of certified recycled material relative to the overall mass of the device, not including packaging or in-box accessories.
23. Carbon reductions are calculated against a product-specific business-as-usual scenario as modeled by Apple: 1) No use of clean electricity for manufacturing or product use, beyond what is already available on the latest modeled grid (based on regional emissions factors). 2) Apple's carbon intensity of key materials as of 2015 (our baseline year for our 2030 product carbon neutrality goal). Carbon intensity of materials reflects use of recycled content and production technology. 3) Apple's average mix of transportation modes (air, rail, ocean, ground) by product line across three years (fiscal years 2017 to 2019) to best capture the baseline transportation emissions of our products.
24. Lithium and cobalt in the battery claims use mass balance allocation.
25. Based on retail packaging as shipped by Apple. Breakdown of U.S. retail packaging by weight. Adhesives, inks, and coatings are excluded from our calculations of plastic content and packaging weight.
26. We estimate the percentage of electricity-related emissions in our manufacturing that is sourced from low-carbon electricity by attributing to our carbon model low-carbon energy procured by our suppliers in the prior fiscal year, based on the supplier manufacturing allocations at time of product launch. This calculation assesses the suppliers for iPhone 16 Pro Max with 256GB. Included in this number is only low-carbon electricity that Apple or its suppliers have procured as part of Apple's Supplier Clean Energy Program.
27. Efficiency performance is based on the U.S. Department of Energy [Federal Energy Conservation Standards for Battery Chargers](#).
28. Apple's Regulated Substances Specification describes Apple's restrictions on the use of certain chemical substances in materials in Apple products, accessories, manufacturing processes, and packaging used for shipping products to Apple's end-customers. Restrictions are derived from international laws or directives, regulatory agencies, eco-label requirements, environmental standards, and Apple policies. Every Apple product is free of PVC and phthalates except for AC power cords in India, Thailand (for two-prong AC power cords), and South Korea, where we continue to seek government approval for our PVC and phthalates replacement. Apple products comply with the European Union Directive 2011/65/EU and its amendments, including exemptions for the use of lead such as high-temperature solder. Apple is working to phase out the use of these exempted substances for new products where technically possible.

Some features may not be available for all countries or all areas. [View complete list](#).
